Message From Rabbi Yachnes:

GETTING BACK ON TARGET: As we begin the "Selichos Season", we beseech Hashem to forgive us for sins we may have committed. It is important and encouraging to bear in mind the MEIRI'S definition of the word Chet(sin). In the sport of archery, when one misses the target, the phrase "HECHTI ES HAMATARA" is announced, which means, he missed the target. The word HECHTI has in it the word Chet, meaning that committing a sin means missing the target. With more and more "practice", one is able to get back on target and our target is the 613 Mitzvos. May Hashem assist us all in our efforts to **getting back on target**. Have a wonderful Shabbos.
