Message From Rabbi Yachnes:

NEVER GIVE UP: The average person will tell you that we celebrate Lag B'omer because the twenty-four thousand students of Rebbe Akiva stopped dying. But why celebrate that? The reason they stopped dying was because they were all dead and there were no more left to die? The P'ri Chdosh says that we celebrate because although Rebbe Akiva worked so long and hard for those students and then lost it all, he **did not give up**. He started again with five new students from whom we have Torah today. **That** is the reason to celebrate! May we hear only good news from Eretz Yisroel. Have a wonderful Shabbos.

JOKE ANSWER!

They are always stuffed!

Thought Provoking Parsha Question: ?

If the Torah assures us that the crop from the sixth year will be excessively abundant, why would any Jews fail to adhere to the laws of Shemittah and insist on planting or harvesting during the Shemittah year?
